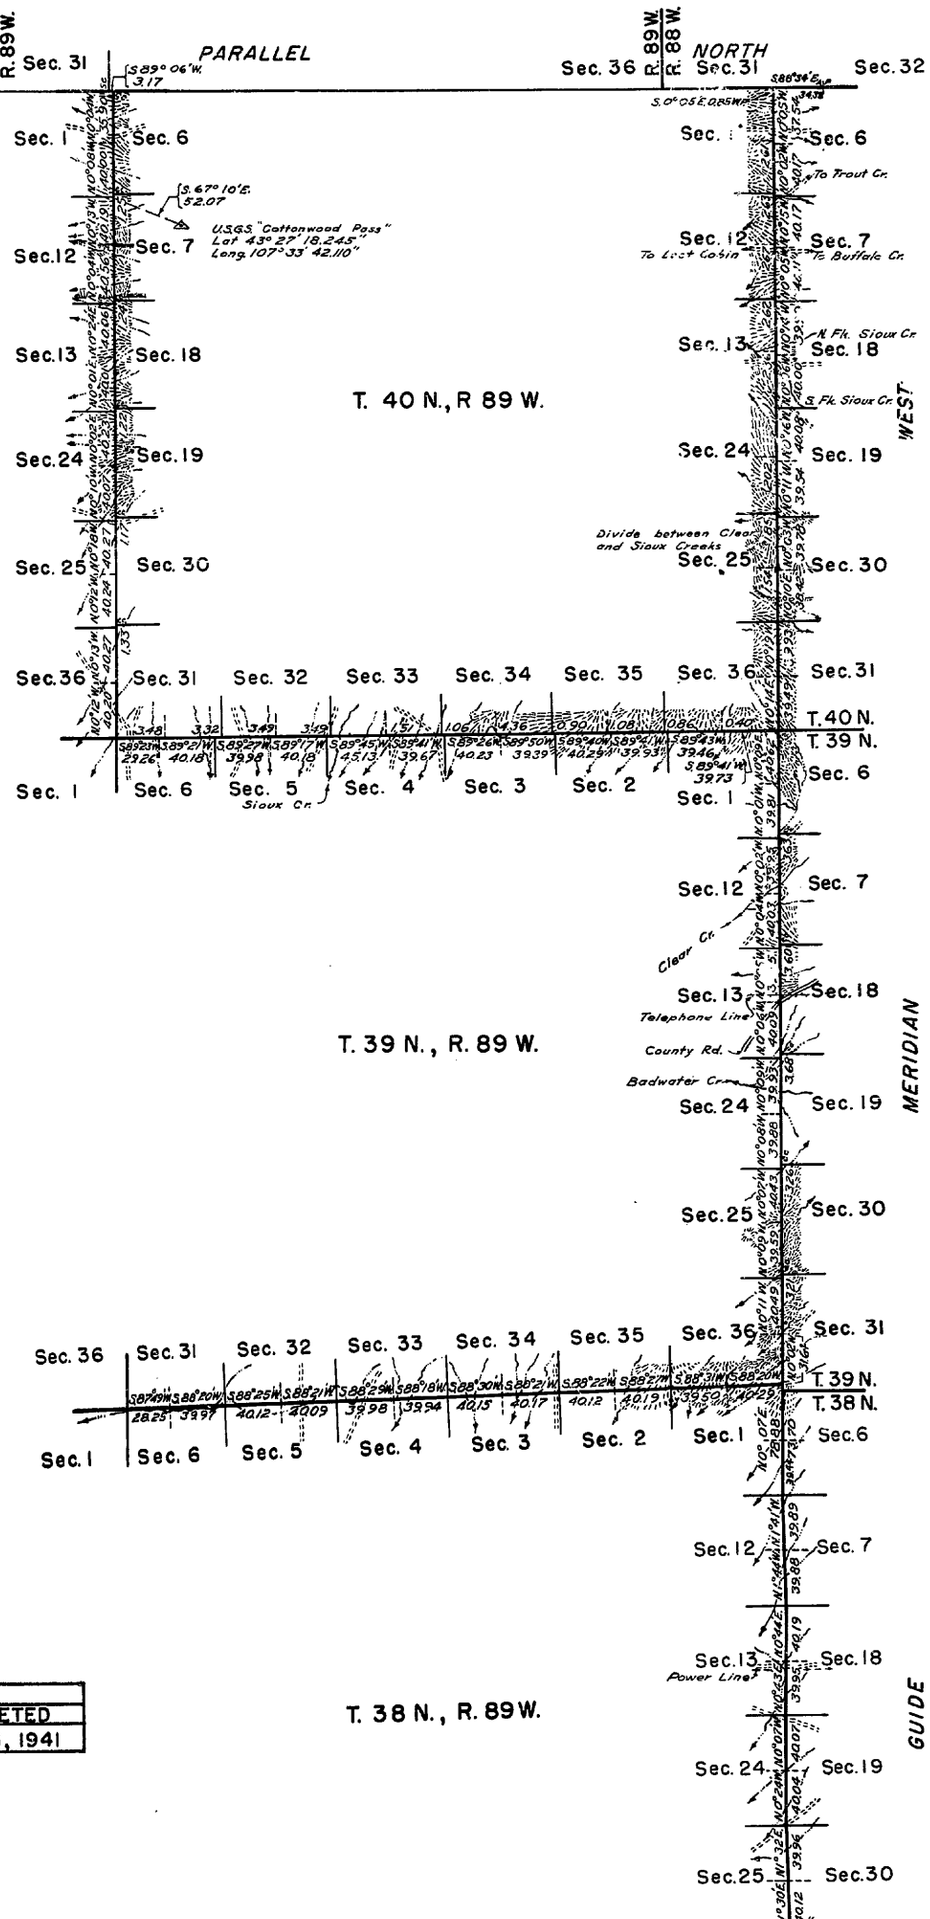
DEPENDENT RESURVEY OF EXTERIOR LINES

TENTH STANDARD PARALLEL NORTH

Memorandum

This plat delineates a retracement and reestablishment of the lines of the original survey in their true original positions according to the best available evidence of the position of the original corners; all differences between the measurements shown on the original plat and those derived in the retracement have been distributed proportionally between accepted corners in accordance with surveying rules.



Resurvey authorized by Commissioner of the General Land Office letter "E" dated August 18, 1939

Variation

Prior to retracement, readjustment and restatement of the lines of the original Survey, as shown on the plat, portions of which were the best available evidence of the lengths of the original courses, all differences between the measurements shown on the original plat and those derived in the retracement have been distributed proportionally between accepted corners or accidental corners of accordance with said original plat.

Resurvey authorized by Commissioner of the General Land Office letter "E" dated August 18, 1939
