98	"	"	35	W½W½	H.E.	1931	Patented	Charles H. Wilson

The resurvey represented by this plat was made for the purpose of restoring all lost or obliterated corners and relocating and marking out upon the ground the Exterior and Subdivisional lines in accordance with the original survey approved February 8, 1884.

Titles and areas based upon the original approved plat remain undisturbed for position and description, except that the extension of the meridional township and section lines across the previously unplatted area, between the original survey and resurvey of the 12th Standard, has created new fractional lots to which designations and areas are here given.
