"The resurvey represented by this plat was made for the purpose of restoring all lost or obliterated corners and relocating and marking out upon the ground the Exterior and Subdivisional lines in accordance with the original survey approved February 8, 1884

Titles and areas based upon the original approved plat remain undisturbed for position and description, except that the extension of the meridional township and section lines across the previously unplatted area, between the original survey and resurvey of the Twelfth Standard, has created new fractional lots to which designations and areas are here given and that the introduction of Segregated Tract No. 37 has created fractional lots of vacant public land which are offered for sale on the basis of the areas and designations shown on this plat"
