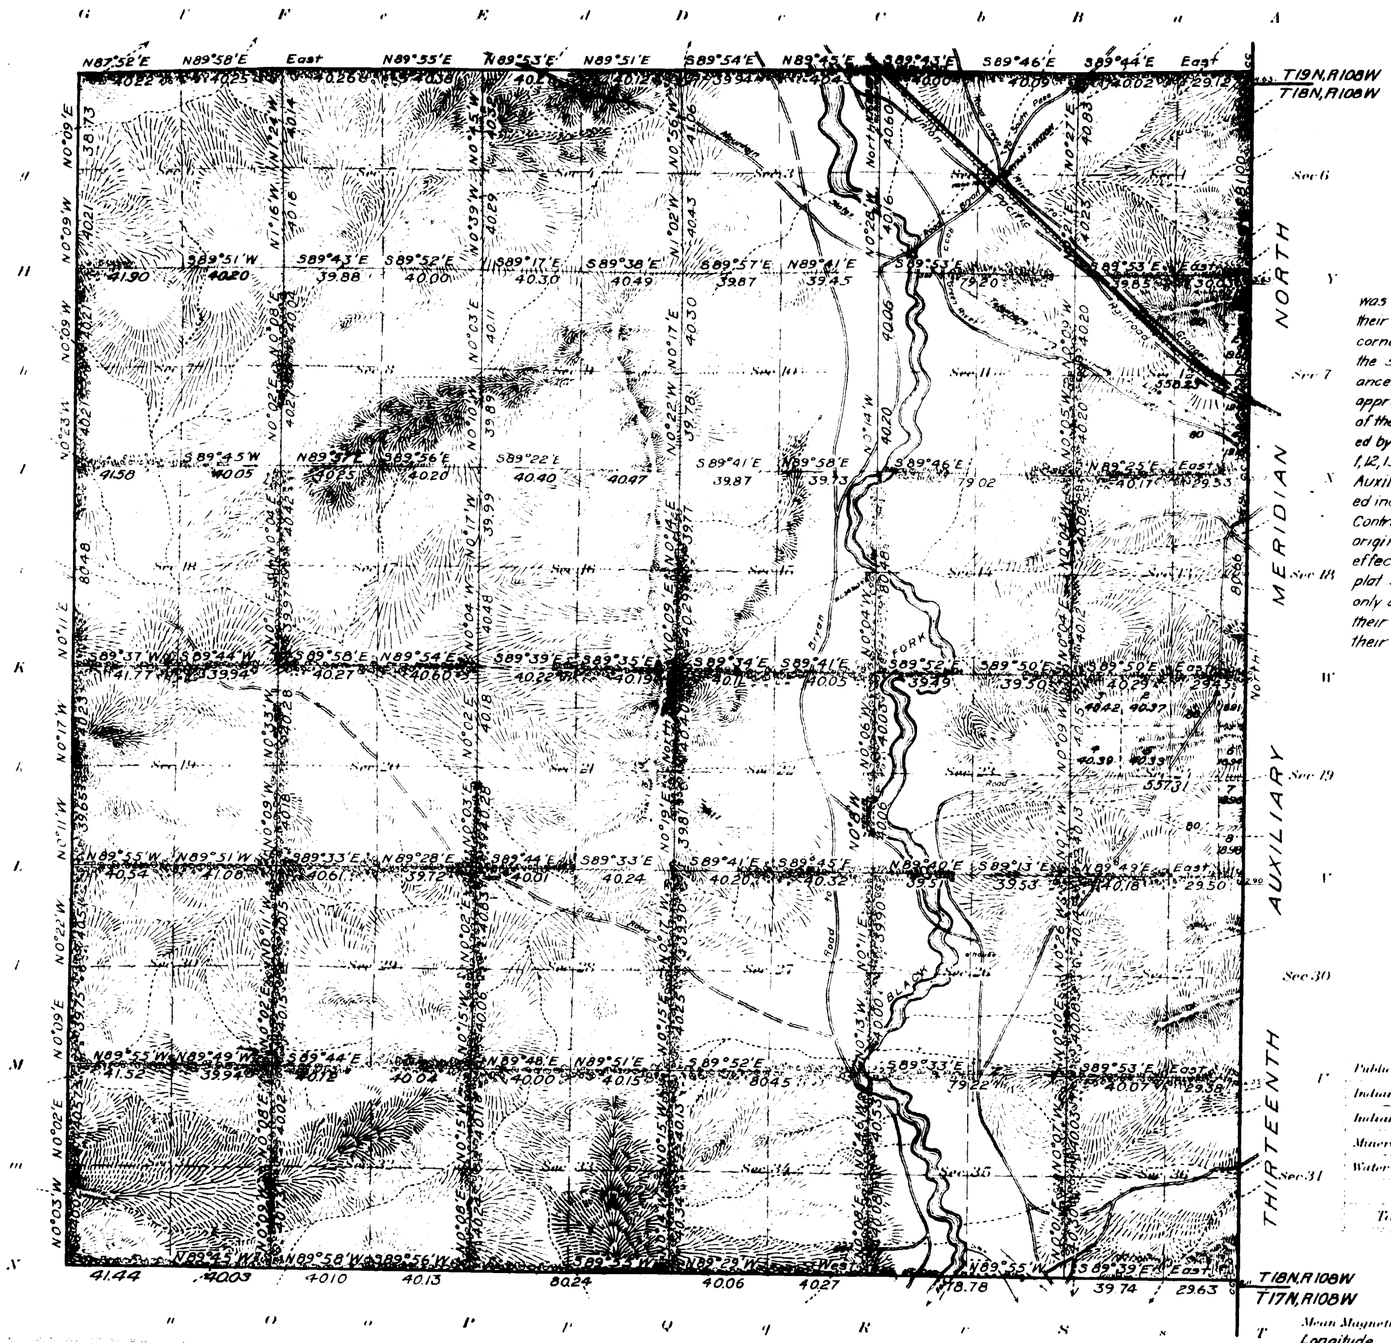
Resurvey Township No. 18 North, Range No. 109 West of the Sixth Principal Meridian Wyoming.



NOTE

The resurvey represented by this plat was made for the purpose of restoring to their original positions all lost or obliterated corners necessary to define the boundaries of the sections and quarter sections, in accordance with the original survey of the township as approved November 17, 1874. The boundaries of the sections are unchanged from those fixed by the original survey, except for Sections 1, 12, 13, 24, 25 and 36, bordering on the 13th Auxiliary Meridian West which was resurveyed independently by Stewart and Allyn under Contract No. 327. Therefore the plat of the original survey remains in full force and effect, except for the above sections, and this plat shows the areas of Sections 12 and 24 only as these sections are unpatented and their east boundaries do not conform to their original positions.
