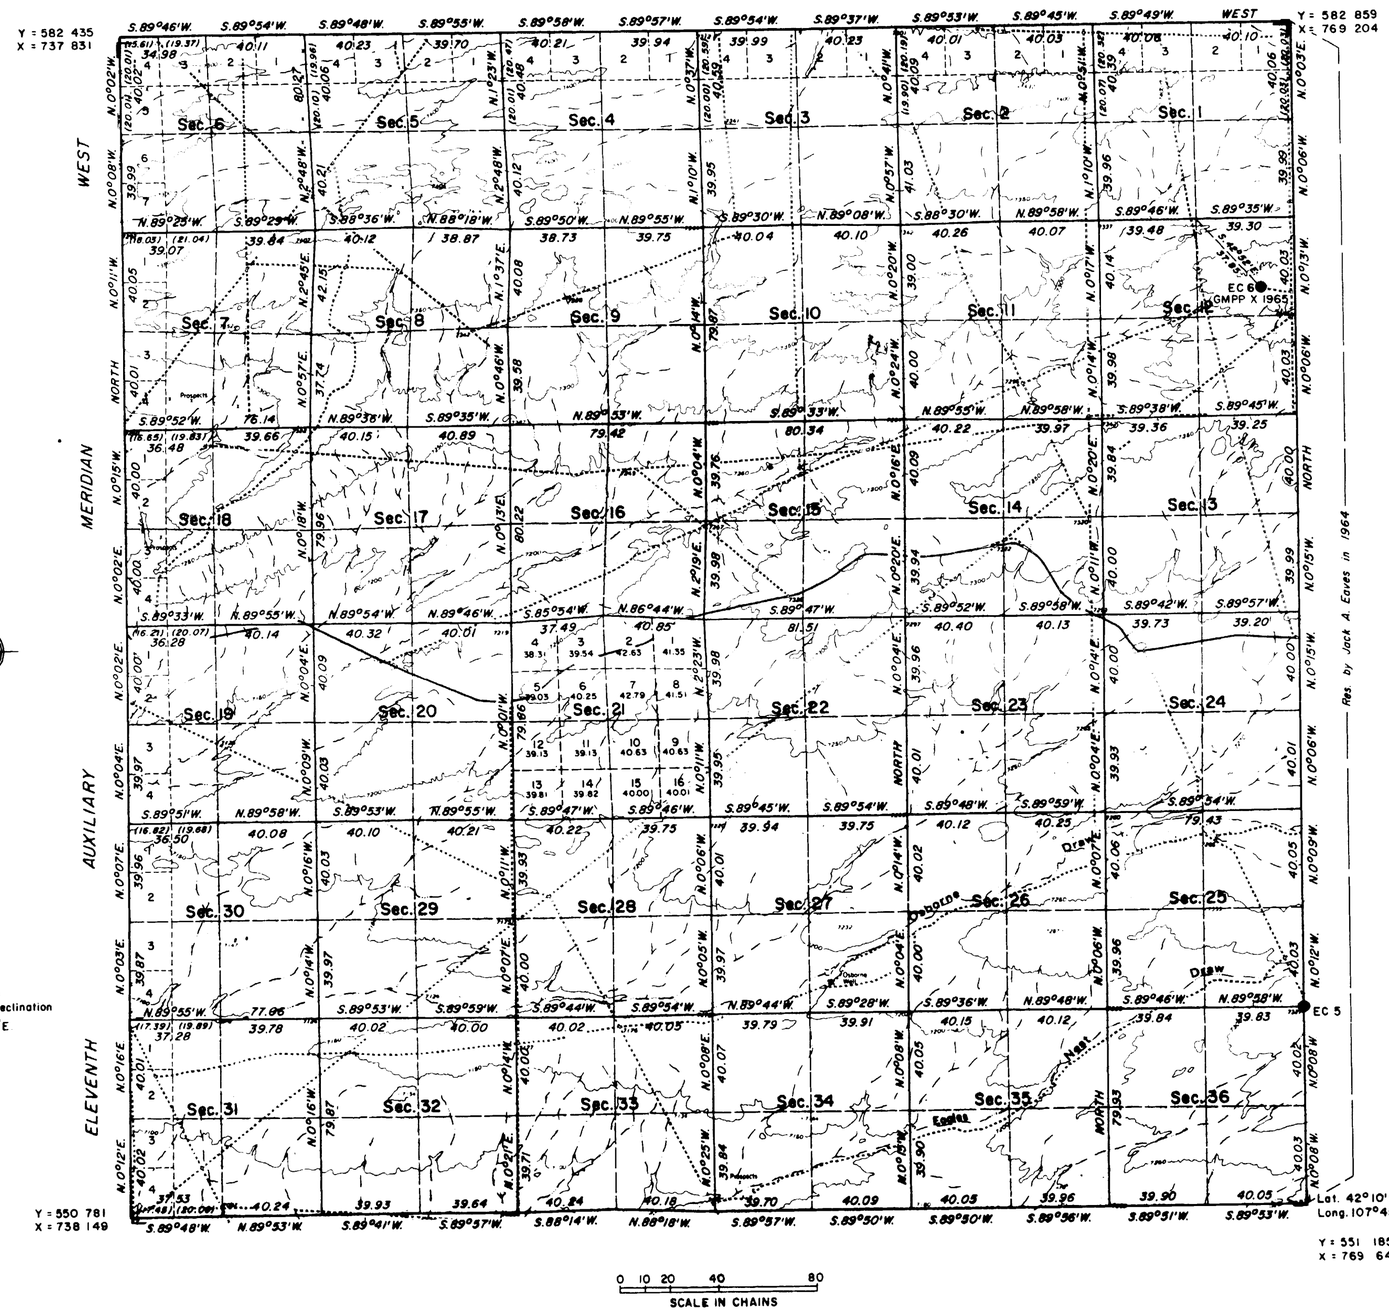
7082

TOWNSHIP 26 NORTH, RANGE 92 WEST OF THE SIXTH PRINCIPAL MERIDIAN, WYOMING.

DEPENDENT RESURVEY



Area Resurveyed 22,907.61 Acres

A history of previous surveys is contained in the field note record.

This plat represents a dependent resurvey of the Eleventh Auxiliary Meridian West through T. 26 N., the north and south boundaries and the subdivisional lines, designed to restore the corners in their true original locations according to the best available evidence.

Except as indicated hereon, the lottings and areas are as shown on the plat approved May 5, 1883.

This dependent resurvey was performed by photogrammetric methods. Horizontal and vertical control for the area of this resurvey was obtained from existing USC&GS and USGS triangulation stations, and further supplemented by the establishment of additional control stations by electronic traverse. All control points, found corners, and temporary points were targeted prior to the flying of the aerial photography. All courses and distances between corners were developed directly from the photography.

The field phases of this resurvey were executed by Clifford A. Robinson, Supervisory Cadastral Surveyor, beginning July 1, 1965, and completed November 14, 1966, pursuant to Supplemental Special Instructions for Group No. 282, Wyoming, dated July 1, 1965.

State Plane Coordinates shown on this plat are based on the Wyoming West Central Zone.

UNITED STATES DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT
Washington, D. C. November 3, 1969

This plat is strictly conformable to the approved field notes, and the survey, having been correctly executed in accordance with the requirements of law and the regulations of this Bureau, is hereby accepted.

For the Director

Clark J. Simms

Chief, Division of Cadastral Survey
