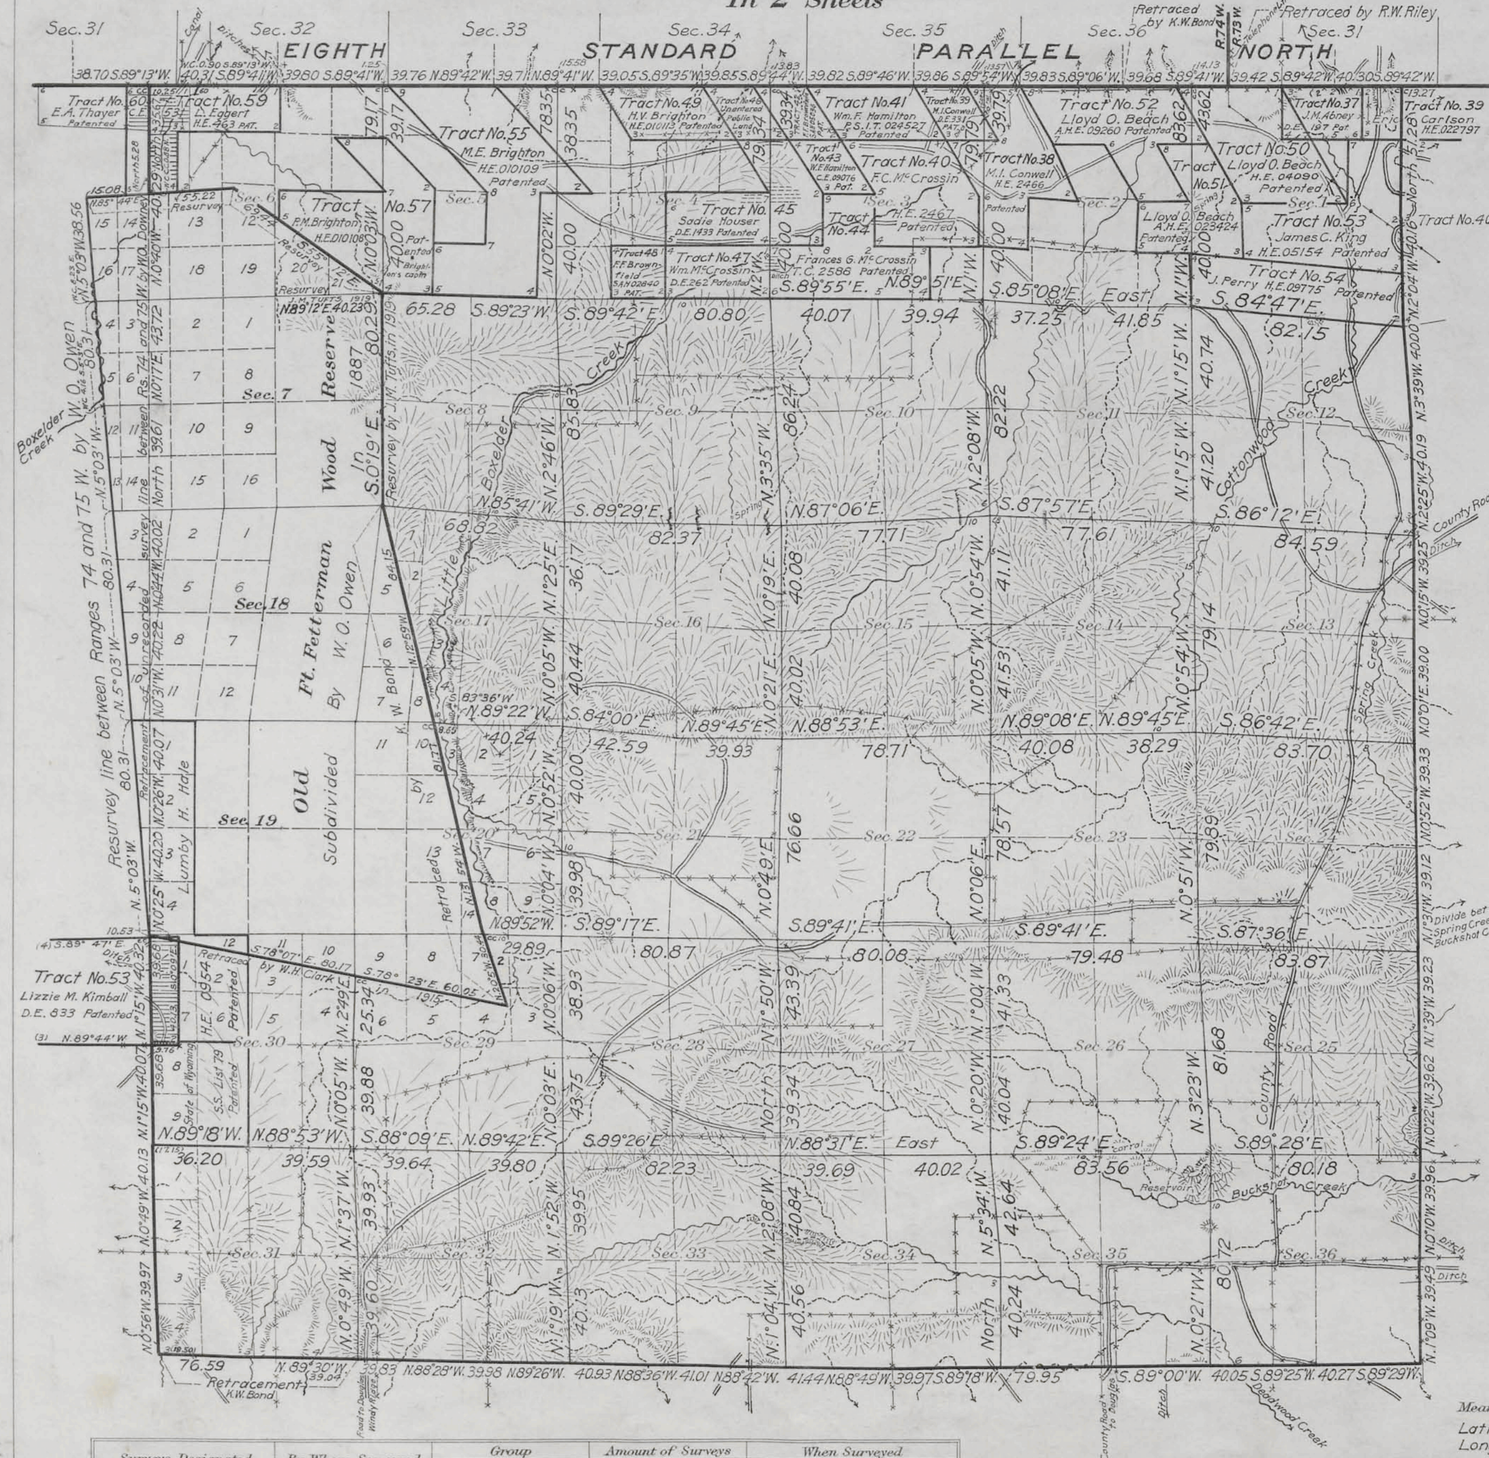
Survey accepted January 17, 1924.

Resurvey Township No. 32 North, Range No. 74 West of the Sixth Principal Meridian, Wyoming

In 2 Sheets

Sheet 1



This plat of the resurvey of T.32 N., R.74 W., delineates a retracement and reestablishment of the lines of the original survey of sections 8 to 17 and 20 to 36 as shown on the plat approved May 29, 1884, in their true original positions according to the best available evidence of the position of the original corners; all differences between measurements shown on the original plat and those derived in the retracement have been distributed proportionally between accepted corners in accordance with surveying rules; reference will be made to the original plat for the showing of areas and more detailed descriptions of the various smaller subdivisions.

Sections 1 to 6 have been independently resurveyed and all tract segregations shown in said sections represent the position and form of said tracts under the original description as referred to the original survey, located as such on the ground according to the best available evidence of their true position. See Sheet No. 2 for designations and areas of public land in Sections 1 to 6.
