A history of surveys is contained in the field notes.

This plat, in 2 sheets, represents the dependent resurvey of a portion of the subdivisional lines, and a portion of the adjusted original meander line of the right and left banks of the Snake River, designed to restore the corners in their true original locations according to the best available evidence, and the survey of the riparian partition lines, and a portion of the meanders of the present right bank of the Snake River, T. 41 N., R. 117 W., Sixth Principal Meridian, Wyoming.

Except as indicated hereon, the lottings and areas are as shown on the plat approved April 2, 1903.

Survey executed by James D. Claflin and Lynn A. Forbes, Cadastral Surveyors, beginning September 26, 1998, and completed May 11, 1999, pursuant to Special Instructions dated April 2, 1998, and Supplemental Special Instructions dated September 25, 1998, for Group No. 652, Wyoming.

This plat represents the survey of riparian lands by photogrammetric methods, T. 41 N., R. 117 W., Sixth Principal Meridian, Wyoming. The aerial photography dated 1974 was obtained from the U. S. Department of the Army, Corp of Engineers and utilized exclusively for identification of the subject lands. All other survey data is derived from the resurvey plat accepted February 26, 1970.

Except as indicated hereon, the lottings and areas are as shown on the plats approved August 16, 1894, April 2, 1903 and October 27, 1919.

Field monumentation and preparation of field notes were not executed during this survey. This plat contains the entire survey record. The metes and bounds descriptions of the tracts shown hereon are available in the group file for Group No. 275, Wyoming.

UNITED STATES DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT

Cheyenne, Wyoming August 21, 1987

This plat, showing amended lottings, is based upon the official records and the additional use of aerial photography and, having been correctly prepared in accordance with the regulations of this Bureau, is hereby accepted.

For the Director

Richard L. Oakes

Chief Cadastral Surveyor for Wyoming

7096

TOWNSHIP 41 NORTH, RANGE 117 WEST OF THE SIXTH PRINCIPAL MERIDIAN, WYOMING.
SURVEY OF OMITTED LANDS

N.0°27'E. 39.78 N.0°25'W. 39.93

History of earlier surveys is contained in the field notes.

This plat represents a retracement and reestablishment of a portion of the east boundary and a portion of the subdivisional lines, designed to restore certain corners in their true original positions according to the best available evidence, and, the survey of lands omitted from the original surveys.

Except as new subdivisions are shown hereon, the lottings and areas are as shown upon the plats approved August 16, 1894, April 2, 1903, and October 27, 1919.

The positions of the original meanders of the right and left banks of the Snake River, through T. 41 N., R. 117 W., are shown by the irregular lines with numbered angle points. These lines, as thus originally surveyed, were improper or grossly in error. By these surveys they have been reestablished as fixed and limiting boundaries of previously surveyed lands with the directions and lengths of the several courses and distances adjusted to appropriate meander corner positions as reestablished.

The resurvey and extension survey of omitted lands were executed by Jack A. Eaves, Supervisory Cadastral Surveyor, beginning August 26, 1963, and completed December 15, 1965, under Special Instructions dated August 25, 1954, for Group No. 239, Wyoming, and Supplemental Special Instructions dated August 11, 1964, for Group No. 275, Wyoming.

Channels of the Snake River, as shown hereon, have been taken from field note information, aerial photography, and current USGS quadrangle coverage.

SUSPENDED June 20, 1978, File 9609 (420)
SUSPENSION REPEALED August 21, 1987, File 9600 (942)
Lottings and areas of all riparian lands shown hereon
are cancelled.

CANCELED: March 2, 2000, File 9600 (957)
This extension survey of omitted lands lying between the
original meanders shown hereon are canceled.

UNITED STATES DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT
Washington, D. C. February 26, 1970

This plat is strictly conformable to the approved field notes, and the survey, having been correctly executed in accordance with the requirements of law and the regulations of this Bureau, is hereby accepted.

For the Director

Chief, Division of Cadastral Survey

NOTE:
Lottings and areas riparian to lot 3, sec. 12
and lot 1, sec. 13 are cancelled per memorandum
9650.13 (942) dated August 25, 1983
