

Notice of Competitive Oil & Gas Lease Sale

August 6, 2002

United States Department of the Interior
Bureau of Land Management
Wyoming State Office

June 21, 2002

Notice of Competitive Oil and Gas Lease Sale

We wish to announce that in accordance with 43 CFR Part 3120, we will offer for competitive sale certain lands in the States of Wyoming and Nebraska for Federal oil and gas leasing. This notice describes-

- The time and place of the sale;
- How the sale will be conducted;
- How to participate in the bidding process;
- The sale process;
- How long the sale will last;
- The conditions of the sale;
- How to file a noncompetitive offer after the sale;
- How to file a presale noncompetitive offer; and
- How to file a protest to our offering the lands in this Notice.

Beginning on page 1 of this Notice is a list of the lands we are offering at this sale. The lands are described by parcel number and legal land description. They are listed in Range and Township order by state and land type and will be offered in that sequence. Below each parcel we have included any stipulations, lease notices, special conditions, or restrictions that will be made a part of the lease at the time we issue it. We have also identified those parcels where the United States owns less than 100 percent interest in the oil and gas mineral rights, have pending presale noncompetitive offers to lease, and are not available for noncompetitive offers to lease if they receive no bid at this sale. For your convenience, we are also including copies of the stipulations, lease notices, etc. affecting the parcels in this sale.

When and where will the sale take place?

When: The competitive sale will begin at 8:00 a.m. on Tuesday, August 6, 2002. The sale room and receiving room will open one hour earlier so you can register and get your bidding number.

Where: We will hold the sale at the Holiday Inn, Convention Center, 204 West Fox Farm Road (I-80 and US85), Cheyenne, Wyoming. A block of rooms at the rate of \$55.00 for single occupancy and \$65.00 for double occupancy has been reserved for sale participants at the Holiday Inn. For room reservations, contact the Holiday Inn at (307) 638-4466. When making room reservations, please state that you are attending the **BLM Oil and Gas Auction**.

Access: The sale room is accessible to persons with disabilities. If you need an auxiliary aid or service to participate in the sale, such as sign language interpreter or materials in an alternate format, contact **Linda Gookin at (307) 775-6162** or **Margaret Lucero at (307) 775-6184** by July 15, 2002.

How will the sale be conducted?

The sale will be conducted by oral auction. You must make your bids verbally. The winning bid is the highest verbal bid equal to or exceeding the national minimum acceptable bid.

How do I participate in the bidding process?

To participate in the bidding process, you must fill out a registration form identifying the lessee's name and address that will be shown on the lease form and get a bidding number. If you are an agent representing more than one lessee, you must register and get a bidding number for each lessee you represent. We will begin registering bidders at 7:00 a.m. on the day of the sale in the receiving room. You must display your bid number to the auctioneer when you make a bid.

What is the sale process?

Starting at 8:00 a.m. on the day of the sale-

- The auctioneer will offer the parcels in the order they are shown in this Notice, beginning on page 1;
- All bids are on a per-acre basis for the entire acreage in the parcel; and
- The decision of the auctioneer is final.

The minimum bid BLM can accept is \$2 per acre or fraction of an acre. If a parcel contains fractional acreage, round it up to the next whole acre. For example, a parcel of 100.51 acres requires a minimum bid of \$202 (\$2 x 101 acres).

How long will the sale last?

We begin the sale at 8:00 a.m. and it continues until all of the parcels in this Notice have been offered. The length of the sale depends on the number of parcels we are offering and the pace of the bidding. We usually take a 15-minute break at 9:30 a.m. to give you a chance to stretch, get refreshments or make phone calls. Normally, the sale is done by noon. However, there are times when the sale goes into the afternoon. When that happens, we will take a lunch break.

What conditions apply to the lease sale?

- **Parcel withdrawal or sale cancellation:** We reserve the right to withdraw any or all parcels before the sale begins. If we withdraw a parcel(s), and time permits, we will post a notice in the Wyoming State Office Public Room before the day of the sale. We will announce withdrawn parcels before beginning the sale. If we cancel the sale, we will notify you as soon as possible.
- **Fractional interests:** If the United States owns less than 100 percent of the oil and gas mineral interest for the land in a parcel we will show that information with the parcel. When we issue the lease, it will be for the percentage or fraction of interest the United States owns. However, you must calculate your bonus bid and advance rental payment on the gross acreage in the parcel, not the United States net interest. For example, if a parcel contains 200 acres and the United States owns 50 percent of the oil and gas mineral interest, the minimum bonus bid will be \$400 (\$2 X 200 acres) and the advance annual rental will be \$300 (\$1.50 X 200 acres) for the first 5-years and \$400 (\$2 X 200 acres) for the remainder of the lease term. Conversely, your chargeable acreage and royalty on production will be calculated on the United States net oil and gas mineral interest.
- **Payment due on the day of the sale:** For each parcel you are the successful high bidder, you must pay the minimum bonus bid of \$2 per acre or fraction of an acre; the first years' advance annual rental of \$1.50 per acre or fraction of an acre; and a non-refundable administrative fee of \$75. You must make this payment in our receiving room at the sale site either during, or immediately following the sale.
- **Remaining payments:** If your bonus bid was more than \$2 per acre or fraction of an acre and you didn't pay the full amount on the day of the sale, you must pay the balance of your bonus bid by **4:00 p.m. on August 20, 2002**, which is the 10th working day following the sale. **If you do not pay in full by this date, you lose the right to the lease and you will forfeit the money you paid on the day of the sale.** If you forfeit a parcel, we may offer it at a later sale.

• **Forms of payment:** You may pay by personal check, certified check, money order, or credit card (Visa, MasterCard, American Express or Discover Card only). We cannot accept cash. If you plan to make your payment using a credit card, you should contact your bank prior to the sale and let them know you will be making a substantial charge against your account. This will help lessen any authorization problems on the day of the sale. If you pay by check, please make your check payable to: **Department of the Interior-BLM**. If a check you have sent to us in the past has been returned for insufficient funds, we may ask that you give us a guaranteed payment, such as a certified check. If you pay by credit card and the transaction is refused, we will try to notify you early enough so that you can make other payment arrangements. **However, we cannot grant you any extension of time to pay the money that is due the day of the sale.**

• **Bid form:** On the day of the sale, if you are the successful bidder, you must give us a properly completed and signed competitive bid form (Form 3000-2, Oct. 1989, or later edition, copy included) with your payment. This form is a legally binding offer by the prospective lessee to accept a lease and all its terms and conditions. Once the form is signed, you cannot change it. ***We will not accept any bid form that has information crossed out or is otherwise altered.***

We recommend you get a copy of the bid form and complete all but the money part before the sale. You can fill out the money part at the sale. Your completed bid form certifies that:

(1) You and the prospective lessee are qualified to hold an oil and gas lease under our regulations at 43 CFR 3102.5-2; and

(2) Both of you have complied with 18 U.S.C. 1860, a law that prohibits unlawful combinations, intimidation of and collusion among bidders.

• **Lease terms:** A lease issued as a result of this sale will have a primary term of 10 years. It will continue beyond its primary term as long as oil or gas is produced in paying quantities on or for the benefit of the lease. Advance rental at \$1.50 per acre or fraction of an acre for the first 5 years (\$2 per acre after that) is due on or before the anniversary date each year until production begins. Once a lease is producing, you must pay a royalty of 12.5 percent of the value or the amount of production removed or sold from the lease. You will find other lease terms on our standard lease form (Form 3100-11, June 1988 or later edition, copy included).

• **Stipulations:** Stipulations are part of the lease and supercede any inconsistent provisions of the lease form.

- **Lease Issuance:** After we receive the bid form, all money due, and, if appropriate, your unit joinder information, we can issue the lease. Usually, a lease is effective the first day of the month following the month in which we sign it. If you want your lease to be effective the first day of the month in which we sign it, you must ask us in writing to do this. We have to receive your request before we sign the lease.

- **Legal Land Descriptions:** We prepared this Notice with land status information from our Legacy Rehost 2000 (LR2000) case recordation system. We are providing you with the following information to assist you in understanding the legal descriptions given for each parcel:

- The township and range contains additional zeros. For example, T. 37 N., R. 62 W., is shown as, T.0370N, R.0620W (additional zeros underlined).

- The section numbers contain additional leading zeros. For example, section 4 is shown as sec.004.

- Lands are described separately by lots, aliquot parts, tracts, and exceptions to survey for each section.

- Railroad rights-of-way exclusions are described as to only those lands affected.

- LR2000 will code a ½ township as a 2 in the database. This 2 will appear as the last digit in the number. For example, T. 14½ N., will appear as T.0142N.

- **Cellular Phone Usage:** You are restricted from using cellular phones in the sale room during the oral auction. You must confine your cellular phone usage to the hallway or terrace area outside the sale room when the auction is taking place.

- **Other Conditions of the Sale:** At the time the sale begins, we will make any rules regarding sale procedures that we feel are necessary for the proper conduct of the sale.

NONCOMPETITIVE OFFERS TO LEASE

What parcels are available for noncompetitive offers to lease?

Unless stated in this Notice, parcels that do not receive a bid at the competitive sale are available for noncompetitive offers to lease beginning the first business day following the day of the sale. If not withdrawn, these parcels are available for noncompetitive offers to lease for a period of two years following the day of the sale.

How do I file a noncompetitive offer to lease after the sale?

If you want to file a noncompetitive offer to lease on an unsold parcel, you must give us-

- Three copies of form 3100-11, *Offer to Lease and Lease for Oil and Gas* properly completed and signed. **(Note: We will accept reproductions of the official form, including computer generated forms, that are legible and have no additions, omissions, other changes, or advertising. If you copy this form you must copy both sides on one page. If you copy the form on 2 pages or use an obsolete lease form, we will reject your offer).** You must describe the lands in your offer as specified in our regulations at 43 CFR §3110.5; and
- Your payment for the total of the \$75 filing fee and, except for noncompetitive future interest lease offers, the first year's advance rental computed at \$1.50 per acre or fraction of an acre. Remember to round up any fractional acreage when you calculate the rental amount.

For your convenience, a drop box will be available at the sale site on the day of the sale to receive your noncompetitive offers to lease. We consider all offers filed the day of a sale and the first business day after it, for any of the unsold parcels, to be filed as of 9:00 a.m. the first business day following the day of the sale. If a parcel receives more than one offer, we will hold a drawing to pick the winner (see 43 CFR 1822.17). We have identified those parcels that have pending presale offers. A noncompetitive presale offer to lease has priority over any other noncompetitive offer to lease filed after the sale.

How do I file a noncompetitive presale offer?

Under our regulations at 43 CFR 3110.1(a), you may file a noncompetitive presale offer to lease for lands that-

- Are available; and
- Have not been under lease during the previous one-year period; or
- Have not been included in a competitive lease sale within the previous two-year period.

Your noncompetitive presale offer to lease must be filed prior to the official posting of this sale Notice. If your presale offer was timely filed, was complete and we do not receive a bid for the parcel that contains the lands in your offer, it has priority over any other noncompetitive offer to lease for that parcel filed after the sale. Your presale offer to lease is your consent to the terms and conditions of the lease, including any additional stipulations. If you want to file a presale offer, follow the guidance listed above for filing a noncompetitive offer after the sale and the regulations at 43 CFR 3110.1(a).

When are the next competitive oil and gas lease sales scheduled?

We have tentatively scheduled our next four competitive lease sales for October 1, 2002, December 3, 2002, February 4, 2003, and April 1, 2003.

How can I find out the results of this sale?

We will post the sale results in our Public Room. You can buy (\$5) a printed copy of the results list by contacting our Public Information Section at (307) 775-6256. Both this sale Notice and the results list will be available at our public internet site: <http://www.wy.blm.gov>.

May I protest BLM's decision to offer the lands in this Notice for lease?

- If you are adversely affected by our decision to offer the lands in this Notice for lease, you may protest the decision to the State Director under regulation 43 CFR 3120.1-3. You must submit your protest in writing to the State Director prior to the day of the sale. Generally, if we are unable to decide the protest before the sale, we will hold the sale while we consider the merits of your protest.
- You may review the decision to offer the lands for lease and the supporting National Environmental Policy Act documents in our Public Room. Our Public Room hours are from 9 a.m. to 4 p.m. Monday through Friday, except on National Holidays.

Whom should I contact if I have a question?

If you have questions on BLM stipulations, lease notices, etc., please contact the appropriate BLM Field Office for assistance. We have included a map that depicts the boundary of each of our Field Offices and a list of their addresses and telephone numbers. If you have questions on another surface management agency's stipulations or restrictions, etc., for parcels under their surface management jurisdiction, please contact Gene Zinkowich, Bureau of Reclamation, Great Plains Region, P. O. Box 36900, Billings, MT 59107-6900, (telephone number 406-247-7719) or U.S.D.A. Forest Service, Douglas Ranger District, 2250 East Richards, Douglas, WY 82633 (telephone number 307-358-4690). For general information about the competitive oil and gas lease sale process, this Notice, or to receive copies of the bid receipt and lease form, please contact **Linda Gookin at (307) 775-6162** or **Margaret Lucero at (307) 775-6184**.

Special Lease Notice:

This parcel contains areas of Visual Resource Management Class III. Post-lease development activities may be subject to visual resource mitigation to meet the objectives established for VRM Class III areas in the Pinedale RMP. Mitigation may include, but is not limited to, screening facilities by terrain or other natural features, using low profile production facilities, centralizing production facilities, and/or directional drilling.

Special Lease Notice:

This parcel contains portions of a crucial big game winter range migration corridor. Post-lease development activities, including construction, drilling, and well completion operations, may be restricted or prohibited during the spring and fall migration periods to protect animals using the corridor.

Special Lease Notice:

This parcel contains areas of Visual Resource Management Class III. Post-lease development activities may be subject to visual resource mitigation to meet the objectives established for VRM Class III areas in the Pinedale RMP.

Mitigation may include, but is not limited to, screening facilities by terrain or other natural features, using low profile production facilities, centralizing production facilities, and/or directional drilling.

Special Lease Notice:

This parcel contains portions of a crucial big game winter range migration corridor. Post-lease development activities, including construction, drilling, and well completion operations, may be restricted or prohibited during the spring and fall migration periods to protect animals using the corridor.

TLS (1) Mar 1 to Jun 30; (2) as mapped on the Pinedale RMP Oil & Gas Lease Stipulation Overlay #2; (3) protecting Sage Grouse nesting habitat.

CSU (1) The lease area may now or hereafter contain plants, animals, or their habitats determined to be threatened, endangered, or other special status species. BLM may recommend modifications to exploration and development proposals to further its conservation and management objective to avoid BLM-approved activity that will contribute to a need to list such a species or their habitat. BLM may require modifications to or disapprove proposed activity that is likely to result in jeopardy to the continued existence of a proposed or listed threatened or endangered species or result in the destruction or adverse modification of a designated or proposed critical habitat. BLM will not approve any ground-disturbing activity that may affect any such species or critical habitat until it completes its obligations under applicable requirements of the Endangered Species Act as amended, 16 U.S.C. § 1531 et seq., including completion of any required procedure for conference or consultation; (2) entire lease; (3) protecting *Charadrius montanus* (Mountain plover), *Mustela nigripes* (Black-footed ferret).

CSU (1) Surface occupancy or use within 1/4 mile of a Sage/Sharp-tailed Grouse strutting/dancing ground will be restricted or prohibited unless the operator and surface managing agency arrive at an acceptable plan for mitigation of anticipated impacts; (2) as mapped on the Pinedale RMP Oil & Gas Lease Stipulation Overlay #2; (3) protecting Sage/Sharp-tailed Grouse breeding habitat.

Lease Notice No. 2

Special Lease Notice:

This parcel contains areas of Visual Resource Management Class III. Post-lease development activities may be subject to visual resource mitigation to meet the objectives established for VRM Class III areas in the Pinedale RMP. Mitigation may include, but is not limited to, screening facilities by terrain or other natural features, using low profile production facilities, centralizing production facilities, and/or directional drilling.

- TLS (1) May 1 to Jun 30; (2) as mapped on the Pinedale RMP Oil & Gas Lease Stipulation Overlay #1; (3) protecting big game parturition areas.
- TLS (1) Nov 15 to Apr 30; (2) as mapped on the Pinedale RMP Oil & Gas Lease Stipulation Overlay #1; (3) protecting big game crucial winter range.
- CSU (1) The lease area may now or hereafter contain plants, animals, or their habitats determined to be threatened, endangered, or other special status species. BLM may recommend modifications to exploration and development proposals to further its conservation and management objective to avoid BLM-approved activity that will contribute to a need to list such a species or their habitat. BLM may require modifications to or disapprove proposed activity that is likely to result in jeopardy to the continued existence of a proposed or listed threatened or endangered species or result in the destruction or adverse modification of a designated or proposed critical habitat. BLM will not approve any ground-disturbing activity that may affect any such species or critical habitat until it completes its obligations under applicable requirements of the Endangered Species Act as amended, 16 U.S.C. § 1531 et seq., including completion of any required procedure for conference or consultation; (2) entire lease; (3) protecting *Lynx canadensis* (Canada lynx).
- CSU (1) Surface occupancy or use from Feb 1 through Jul 31 within a radius of up to 1 mile of occupied or active raptor nest sites will be restricted or prohibited unless the operator and surface managing agency arrive at an acceptable plan for mitigation of anticipated impacts; (2) as mapped on the Pinedale RMP Oil & Gas Lease Stipulation Overlay #2, or as determined by a pre-disturbance raptor survey; (3) protecting raptor nesting habitat.
- CSU (1) Surface occupancy or use within the Miller Mountain winter big game closure area will be restricted or prohibited from Nov 15 through Apr 30 unless the operator and surface managing agency arrive at an acceptable plan for mitigation of

anticipated impacts. This may include development, operations, and maintenance of facilities; (2) entire lease; (3) protecting big game crucial winter range for multiple species.

MULTIPLE MINERAL DEVELOPMENT STIPULATION

Operations will not be approved which, in the opinion of the authorized officer, would unreasonably interfere with the orderly development and/or production from a valid existing mineral lease issued prior to this one for the same lands.

THIS STIPULATION APPLIES TO ALL PARCELS

LEASE NOTICE NO. 1

Under Regulation 43 CFR 3101.1-2 and terms of the lease (BLM Form 3100-11), the authorized officer may require reasonable measures to minimize adverse impacts to other resource values, land uses, and users not addressed in lease stipulations at the time operations are proposed. Such reasonable measures may include, but are not limited to, modification of siting or design of facilities, timing of operations, and specification of interim and final reclamation measures, which may require relocating proposed operations up to 200 meters, but not off the leasehold, and prohibiting surface disturbance activities for up to 60 days.

The lands within this lease may include areas not specifically addressed by lease stipulations that may contain special values, may be needed for special purposes, or may require special attention to prevent damage to surface and/or other resources. Possible special areas are identified below. Any surface use or occupancy within such special areas will be strictly controlled or, if absolutely necessary, prohibited. Appropriate modifications to imposed restrictions will be made for the maintenance and operation of producing wells.

1. Slopes in excess of 25 percent.
2. Within 500 feet of surface water and/or riparian areas.
3. Construction with frozen material or during periods when the soil material is saturated or when watershed damage is likely to occur.
4. Within 500 feet of Interstate highways and 200 feet of other existing rights-of-way (i.e., U.S. and State highways, roads, railroads, pipelines, powerlines).
5. Within 1/4 mile of occupied dwellings.
6. Material sites.

GUIDANCE:

The intent of this notice is to inform interested parties (potential lessees, permittees, operators) that when one or more of the above conditions exist, surface disturbing activities will be prohibited unless or until the permittee or the designated representative and the surface management agency (SMA) arrive at an acceptable plan for mitigation of anticipated impacts. This negotiation will occur prior to development and become a condition for approval when authorizing the action.

Specific threshold criteria (e.g., 500 feet from water) have been established based upon the best information available. However, geographical areas and time periods of concern must be delineated at the field level (i.e., "surface water and/or riparian areas" may include both intermittent and ephemeral water sources or may be limited to perennial surface water).

The referenced oil and gas leases on these lands are hereby made subject to the stipulation that the exploration or drilling activities will not interfere materially with the use of the area as a materials site/free use permit. At the time operations on the above lands are commenced, notification will be made to the appropriate agency. The name of the appropriate agency may be obtained from the proper BLM Field Office.

THIS NOTICE APPLIES TO ALL PARCELS

LEASE NOTICE NO. 2

BACKGROUND:

The Bureau of Land Management (BLM), by including National Historic Trails within its National Landscape Conservation System, has recognized these trails as national treasures. Our responsibility is to review our strategy for management, protection, and preservation of these trails. The National Historic Trails in Wyoming, which include the Oregon, California, Mormon Pioneer, and Pony Express Trails, as well as the Nez Perce Trail, were designated by Congress through the National Trails System Act (P.L. 90-543; 16 U.S.C. 1241-1251) as amended through P.L. 106-509 dated November 13, 2000. Protection of the National Historic Trails is normally considered under the National Historic Preservation Act (P.L. 89-665; 16 U.S.C. 470 et seq.) as amended through 1992 and the National Trails System Act. Additionally, Executive Order 13195, "Trails for America in the 21st Century," signed January 18, 2001, states in Section 1: "Federal agencies will...protect, connect, promote, and assist trails of all types throughout the United States. This will be accomplished by: (b) Protecting the trail corridors associated with national scenic trails and the high priority potential sites and segments of national historic trails to the degrees necessary to ensure that the values for which each trail was established remain intact." Therefore, the BLM will be considering all impacts and intrusions to the National Historic Trails, their associated historic landscapes, and all associated features, such as trail traces, grave sites, historic encampments, inscriptions, natural features frequently commented on by emigrants in journals, letters and diaries, or any other feature contributing to the historic significance of the trails. Additional National Historic Trails will likely be designated amending the National Trails System Act. When these amendments occur, this notice will apply to those newly designated National Historic Trails as well.

STRATEGY:

The BLM will proceed in this objective by conducting a viewshed analysis on either side of the designated centerline of the National Historic Trails in Wyoming, except, at this time, for the Nez Perce Trail, for the purpose of identifying and evaluating potential impacts to the trails, their associated historic landscapes, and their associated historic features. Subject to the viewshed analysis and archaeological inventory, reasonable mitigation measures may be applied. These may include, but are not limited to, modification of siting or design of facilities to camouflage or otherwise hide the proposed operations within the viewshed. Additionally, specification of interim and final reclamation measures may require relocating the proposed operations within the leasehold. Surface disturbing activities will be analyzed in accordance with the National Environmental Policy Act of 1969 (P.L. 91-190; 42 U.S.C. 4321-4347) as amended through P.L. 94-52, July 3, 1975 and P.L. 94-83, August 9, 1975, and the National Historic Preservation Act, supra, to determine if any design, siting, timing, or reclamation requirements are necessary. This strategy is necessary until the BLM determines that, based on the results of the completed viewshed analysis and archaeological inventory, the existing land use plans (Resource Management Plans) have to be amended.

The use of this lease notice is a predecisional action, necessary until final decisions regarding surface disturbing restrictions are made. Final decisions regarding surface disturbing restrictions will take place with full public disclosure and public involvement over the next several years if BLM determines that it is necessary to amend existing land use plans.

GUIDANCE:

The intent of this notice is to inform interested parties (potential lessees, permittees, operators) that when any oil and gas lease contains remnants of National Historic Trails, or is located within the viewshed of a National

Historic Trails' designated centerline, surface disturbing activities will require the lessee, permittee, operator or, their designated representative, and the surface management agency (SMA) to arrive at an acceptable plan for mitigation of anticipated impacts. This negotiation will occur prior to development and become a condition for approval when authorizing the action.

THIS NOTICE APPLIES TO ALL PARCELS

ATTACHMENT TO EACH LEASE

NOTICE TO LESSEE

Provisions of the Mineral Leasing Act (MLA) of 1920, as amended by the Federal Coal Leasing Amendments Act of 1976, affect an entity's qualifications to obtain an oil and gas lease. Section 2(a)(2)(A) of the MLA, 30 U.S.C. 201 (a)(2)(A), requires that any entity that holds and has held a Federal coal lease for 10 years beginning on or after August 4, 1976, and who is not producing coal in commercial quantities from each such lease, cannot qualify for the issuance of any other lease granted under the MLA. Compliance by coal lessees with Section 2(a)(2)(A) is explained in 43 CFR 3472.

In accordance with the terms of this oil and gas lease, with respect to compliance by the initial lessee with qualifications concerning Federal coal lease holdings, all assignees and transferees are hereby notified that this oil and gas lease is subject to cancellation if: (1) the initial lessee as assignor or as transferor has falsely certified compliance with Section 2(a)(2)(A), or (2) because of a denial or disapproval by a State Office of a pending coal action, i.e., arms-length assignment, relinquishment, or logical mining unit, the initial lessee as assignor or as transferor is no longer in compliance with Section 2(a)(2)(A). The assignee, sublessee or transferee does not qualify as a bona fide purchaser and, thus, has no rights to bona fide purchaser protection in the event of cancellation of this lease due to noncompliance with Section 2(a)(2)(A).

Information regarding assignor, sublessor or transferor compliance with Section 2(a)(2)(A) is contained in the lease case file as well as in other Bureau of Land Management records available through the State Office issuing this lease.

THIS STIPULATION APPLIES TO ALL PARCELS

The U.S. Fish and Wildlife Service (FWS) has proposed for listing under the Endangered Species Act (ESA) of 1973, the mountain plover (*Charadrius montanus*) as a threatened species. A listing package has been sent to the Director of FWS in Washington, D.C. for review/approval. The listing is very likely in the near future. Mountain plovers migrate to Wyoming to nest each year and are confirmed to nest in every county. Even though they arrive in early April and complete their nesting by the middle of July, alteration of habitat throughout the rest of the year can have a detrimental effect on these birds as they generally return to the same location to nest each year. The exploration and development of oil and gas leases may have a detrimental effect on mountain plovers and their habitat. Some of the land encompassed in the lease parcels described in the August 6, 2002, *Notice of Competitive Oil and Gas Lease Sale* contain habitat for the mountain plover and have been designated as such. Most of the parcels have not been specifically inventoried for the presence or absence of mountain plovers, so reliable information is not available at this time. This information notice is to alert potential purchasers that **all** of the parcels in this sale are subject to the ESA and may contain habitat for mountain plovers (even if not specifically denoted herein). Inventories will be required when potential mountain plover habitat exists within a lease parcel. If the birds are then found to be present, then additional protective measures most likely will be added to allow for any disturbing activities. If a lease parcel contains no mountain plover habitat or if the birds are not present, then the lease parcel may be developed without restrictions for mountain plovers. If at a later date mountain plovers occupy previously unoccupied habitat within a lease parcel, then additional protective measures will most likely be added. Please see section 6 of the Lease Terms for additional information regarding threatened or endangered species.

UNIT AGREEMENTS

Before issuance of lease for lands within an approved unit, the offeror may be required to join the unit (43 CFR 3101.3-1). The following parcels are within approved units. However, any lands included in this Notice that are determined to be in a unit prior to lease issuance are subject to regulation (43 CFR 3101.3-1).

Sun Dog Unit

WY-0208-065

NO SURFACE OCCUPANCY STIPULATION - NSO

No surface occupancy or use is allowed on the lands described below (legal subdivision or other description).

NSO (1)

For the purpose of:

NSO (2)

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

TIMING LIMITATION STIPULATION - TLS

No surface use is allowed during the following time period(s). This stipulation does not apply to operation and maintenance of production facilities.

TLS (1)

On the lands described below:

TLS (2)

For the purpose of (reasons):

TLS (3)

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)

CONTROLLED SURFACE USE STIPULATION - CSU

Surface occupancy or use is subject to the following special operating constraints.

CSU (1)

On the lands described below:

CSU (2)

For the purpose of:

CSU (3)

Any changes to this stipulation will be made in accordance with the land use plan and/or the regulatory provisions for such changes. (For guidance on the use of this stipulation, see BLM Manual 1624 and 3101 or FS Manual 1950 and 2820.)
