

5.0 CONSULTATION AND COORDINATION

In addition to this EIS¹, other factors and consultations are considered and play a major role in determining the decision on these proposed lease applications. These include the following.

Regional Coal Team Consultation

The four coal lease applications included in this EIS were all reviewed and discussed at the October 25, 2000 PRRCT public meeting in Cheyenne, Wyoming. Each of the applicants presented information about their existing mine and pending lease application to the PRRCT at that meeting. Voting and nonvoting members of the PRRCT include the governors of Wyoming and Montana, the Northern Cheyenne Tribe, the Crow Tribal Council, the USDA-FS, OSM, USFWS, NPS, and USGS. The PRRCT determined that the lands in the four applications met the qualifications for processing as production maintenance tracts. The PRRCT recommended that the BLM continue to process all four lease applications.

Governor's Consultation

The BLM Wyoming State Director notified the Governor of Wyoming on April 5, 2000 that PRCC had filed a lease application with BLM for the NARO North and NARO South LBA Tracts. The BLM Wyoming State Director notified the Governor of

Wyoming on April 15, 2000 that ALC filed a lease application with BLM for the Little Thunder LBA Tract. The BLM Wyoming State Director notified the Governor of Wyoming on August 24, 2000 that TCC filed a lease application with BLM for the West Roundup LBA Tract. The BLM Wyoming State Director notified the Governor of Wyoming on October 3, 2000 that ACC filed a lease application with BLM for the West Antelope LBA Tract.

Public Notice

A notice announcing the receipt of the PRCC, ALC, and TCC coal lease applications was published in the *Federal Register* on September 12, 2000. This notice also announced the date, time, and place of the PRRCT meeting to be held on October 25, 2000 to discuss these applications. BLM published a Notice of Intent to Prepare an Environmental Impact Statement and Notice of Scoping in the *Federal Register* on October 3, 2001 and in the Gillette News-Record on September 25, 2001 and October 2, 2001. The publications served as public notice that the ACC coal lease application had been received, announced the time and location of a public scoping meeting, and requested public comment on all four lease applications.

Parties on the distribution list were sent letters announcing the time and location of a public scoping meeting in September 2001. The public scoping meeting was held on October 10, 2001 in Gillette, Wyoming. At the public meeting, PRCC, TBCC, TCC, and ACC

¹ Refer to page xii for a list of abbreviations and acronyms used in this document.

personnel orally presented information about their mines and their needs for the coal. The presentations were followed by a question and answer period, during which one oral comment was made. The scoping period extended from October 1 through October 31, 2001, during which time BLM received 12 written comments.

A notice announcing the availability of the SPRB Coal Draft EIS was published in the *Federal Register* on February 7, 2003 by the EPA. The BLM published a Notice of Availability and Notice of Public Hearing in the *Federal Register* on February 20, 2003, and in the Gillette News-Record and Douglas Budget on February 5 and February 12, 2003. A comment period on the Draft EIS commenced on February 7, 2003, with publication of the EPA Notice of Availability and ended on April 11, 2003. A public hearing was held at 7:00 pm on March 4, 2002, at the Best Western Tower West Lodge in Gillette, Wyoming. The purpose of the public hearing was to solicit public comments on the Draft EIS and on the fair market value, the maximum economic recovery, and the proposed competitive sale of coal from the five LBA tracts. Comments from four speakers were recorded at the public hearing. BLM received 12 written comment letters on the Draft EIS, which are included with agency responses as Appendix M in this Final EIS.

Parties on the distribution list are being sent copies of this Final EIS. Availability of the SPRB Coal Final

EIS will be published in the *Federal Register* by the BLM and the EPA. After a 30-day availability period, BLM will make a separate decision to hold or not to hold a competitive lease sale for the federal coal in each of these five tracts. A public ROD for each of the tracts will be mailed to parties on the mailing list and others who commented on this EIS during the NEPA process. The public and/or the applicants can appeal the BLM decision to hold or not to hold a competitive sale and issue a lease for any of the five tracts. There will be a 30-day appeal period on each ROD before it can be implemented.

Department of Justice Consultation

After each competitive coal lease sale, but prior to issuance of a lease, BLM will solicit the opinion of the Department of Justice on whether the planned lease issuance creates a situation inconsistent with federal anti-trust laws. The Department of Justice is allowed 30 days to make this determination. If the Department of Justice has not responded in writing within the 30 days, BLM can proceed with issuance of the lease.

Other Consultations

Other federal, state, and local governmental agencies that were directly consulted in preparation of this EIS are listed in Table 5-1.

List of Preparers

This EIS was prepared by WWC Engineering, a third-party contractor,

under the direction of the BLM. Representatives from cooperating agencies contributed to and participated in the NEPA process. Tables 5-2 and 5-3 provide listings of the BLM, USDA-FS, and OSM interdisciplinary team and the third-party consultant personnel who prepared and reviewed this EIS.

Distribution List

This EIS was distributed to numerous Congressional offices, federal agencies, state governments, local governments, industry representatives, interest groups, and individuals for their review and comment (Tables 5-4a and 5-4b).

5.0 Consultation and Coordination
