Re: Environmental Assessment for the
Atlantic Rim Interim Drilling
Project, Doty Mountain Pod

Dear Reader:

Enclosed for your review and comment is the Environmental Assessment (EA) for Warren E & P, Inc. (Warren), Double Eagle Petroleum Company (Double Eagle), and Anadarko E&P Company (AEPC), Doty Mountain Exploration Project. The project is located in one of nine areas proposed for exploration drilling for the purpose of providing information for use in the preparation of the Environmental Impact Statement for the Atlantic Rim Natural Gas Project. In order to satisfy the requirements of the National Environmental Policy Act, this EA was prepared to analyze impacts associated with the exploration of natural gas resources northeast of Baggs, in Carbon County, Wyoming.

Analysis of the environmental consequences has led to the determination that this proposed project, with the appropriate mitigating measures, will not have a significant effect on the human environment. Therefore, an environmental impact statement will not be required. Pending the results of a public review of this document, the Bureau of Land Management (BLM) will prepare a formal Decision Record.

Your comments should be as specific as possible. We will accept comments on the alternatives presented and on the adequacy of the impact analysis until November 30, 2003.

Comments may be submitted via regular mail to:
