

CHAPTER 5

CONSULTATION AND COORDINATION

The Snake River RMP EIS was prepared by an interdisciplinary team of specialists from the Pinedale Field Office, the Rock Springs Field Office, and the Wyoming State Office of the BLM (Table 5-1). Reviews for accuracy and consistency were provided by both the field office and state office staffs.

Consultation, coordination, and public involvement have occurred throughout the process through public meetings, informal meetings, individual contacts, surveys, comment periods, news releases, and *Federal Register* notices.

The process began in the 1980s after the settlement of lawsuits dealing with ownership of the lands along the Snake River. A charter for preparation of the Snake River RMP was finalized in 1999.

PUBLIC PARTICIPATION

Public participation was addressed in the project charter to ensure that the public would have numerous opportunities to be actively involved in the planning and environmental process. Formal and informal input has been encouraged and used.

A public meeting was held on January 27, 2000, to gather comments and input on the Management Situation Analysis, released in December, 1999. A Contingent Valuation Methodology study was conducted during the summer and fall of 2000, to identify non-market values associated with the public land parcels. Representatives of the Pinedale Field Office continue to meet regularly with the Teton County Commission and other area government agencies at a monthly Interagency Breakfast. Formal public comments were received on the Scoping Letter and Notice of Intent (December 1999), the preliminary Planning Criteria and Planning Issues (May 2000), and the Management Situation Analysis (February 2001), and the Preliminary Alternatives (January 2002).

BLM personnel have met formally or informally with many members of the outfitting and ranching industries and the general public.

CONSISTENCY

Coordination with other agencies and consistency with other plans was accomplished through frequent communications and cooperative efforts between the BLM and involved federal, state, and local agencies and organizations (Table 5-2).

**TABLE 5-2
KEY COORDINATION ACTIONS**

AGENCY	COORDINATION/RESPONSIBILITY
FEDERAL AGENCIES	
U.S. Department of the Interior	
Fish and Wildlife Service	Review actions affecting threatened or endangered species of fish, wildlife, or plants.
Geological Survey	Review of RMP for consistency with USGS planning.
Minerals Management Service	Review of RMP for consistency with MMS planning.
U.S. Department of Agriculture	
Animal and Plant Health Inspection Service, Wildlife Services	Review of RMP for consistency with Wyoming Predator Damage Management Plan as it relates to resolving conflicts in human-wildlife interactions; i.e., presence of grizzly bears and gray wolves.
Forest Service	Review of RMP for consistency with the management actions. The proposed actions would also be discussed with the Wyoming State Forestry Division and other agencies involved in wild land fire management.
TETON COUNTY	Review RMP for consistency; zoning; access permits.

The Wyoming Governor’s Clearinghouse receives 18 copies of this draft document for review to ensure consistency with ongoing State plans. The RMP team has reviewed the Teton County plan to ensure consistency. Meetings are held with the respective county planners and commissioners to promote greater understanding of goals, objectives, and resources of both the county and the BLM.

CONSULTATION AND COORDINATION

Members of the RMP team have consulted formally or informally with numerous agencies, groups, and individuals in the RMP development process. The following list is representative of the businesses, agencies, organizations, and individuals who have indicated an interest in the Snake River RMP and who have been contacted during the planning process.
