

**TABLE 1  
LAND AND MINERAL OWNERSHIP AND ADMINISTRATIVE JURISDICTIONS  
WITHIN THE SNAKE RIVER RMP PLANNING AREA**

Jurisdiction	Approximate Acres
<b>Areas the Snake River RMP Decisions Will Cover:</b>	
A. Federal surface/federal minerals <sup>1</sup>	981
B. Private surface/federal minerals <sup>2</sup>	14,142
<b>Total BLM-administered federal land surface to be covered by RMP decisions</b>	981
<b>Total BLM-administered federal mineral estate to be covered by RMP decisions</b>	15,123
<b>Areas the Snake River RMP Decisions Will NOT Cover:</b>	
C. USFWS land/federal minerals <sup>3</sup>	12,500
D. State land/nonfederal minerals <sup>4</sup>	2,540
E. Private land/nonfederal minerals	42,120
F. USFWS/nonfederal minerals	13,360
<b>Total BLM-administered federal mineral estate that will NOT be covered by RMP decisions</b>	12,500
<b>Total land surface areas in the Snake River RMP planning area (all ownerships)</b>	85,643

<sup>1</sup> In areas where the Federal land surface and Federal mineral estate are both administered by the BLM, the RMP will include planning and management decisions for both the land surface and the mineral estate.

<sup>2</sup> In areas where the land surface is privately owned, and the minerals are Federally owned, the RMP will include planning and management decisions for only the BLM-administered Federal mineral estate. While the land and resource uses and values on the non-Federal surface will be taken into account and will affect development of the Federal mineral planning and management decisions, these decisions will not pertain to the privately owned land surface. At the same time, surface and minerals management actions and development activities anticipated in these areas will be taken into account for purposes of cumulative impact analysis in the Snake River RMP EIS.

<sup>3</sup> In areas where the Federal land surface is administered by the USFWS, (specifically the National Elk Refuge), and the Federal mineral estate is administered by the BLM, the land surface planning and management decisions are the responsibility of the USFWS. Any BLM administrative responsibilities within these areas (for example, actions concerning the Federal mineral estate) are handled case by case and are guided by the policies, procedures, and plans of the USFWS. At the same time, surface and minerals management actions and development activities anticipated in these areas will be taken into account for purposes of cumulative impact analysis in the Snake River RMP EIS.

<sup>4</sup> The Snake River RMP will not include any planning and management decisions for areas where the land surface and minerals are both privately owned, or owned by state, local, or other federal government agencies.
