

TOWNSHIP 51 NORTH, RANGE 73 WEST, OF THE SIXTH PRINCIPAL MERIDIAN, WYOMING.

SUPPLEMENTAL PLAT

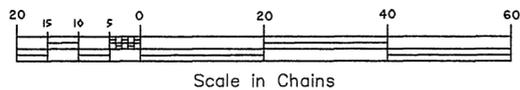

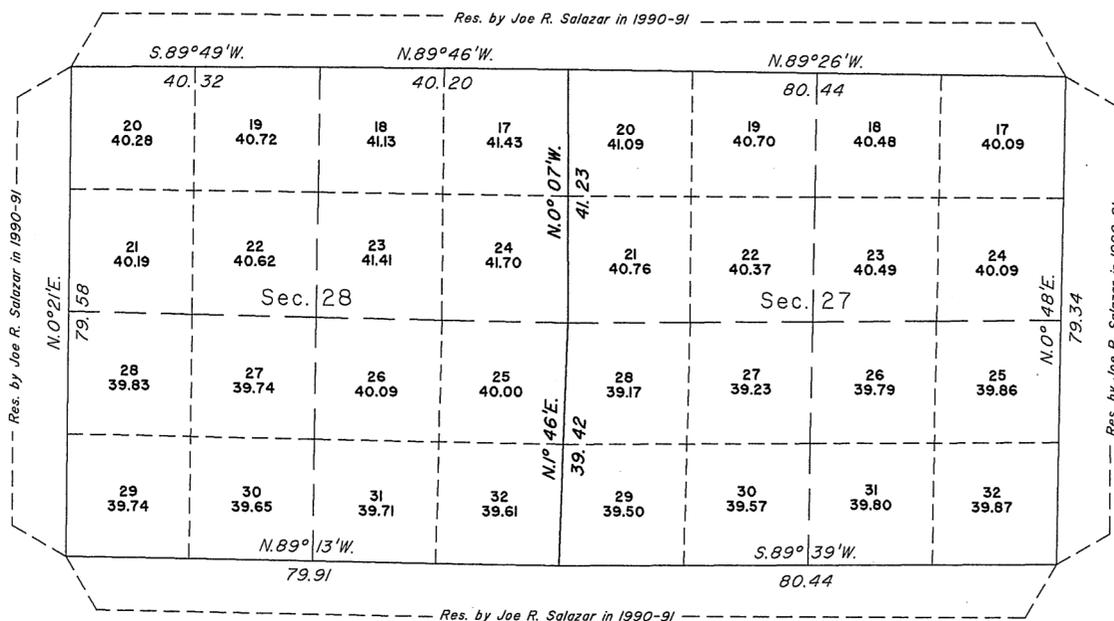

This supplemental plat as shown hereon corrects the measurements between sections 27 and 28, and the areas of the lots. The corner positions were not affected and are as described in the 1990-91 dependent resurvey.

On September 1, 2010, Theodore L. McMahon, Wyoming Professional Land Surveyor, Registration No. 6811, purported the bearing and distances of the mile between sections 27 and 28 did not conform to the 1995 official record by a substantial amount.

An investigation of well plat records showing measurements of this line by two additional Professional Land Surveyors, Cevin C. Imus, Wyoming Professional Land Surveyor, Registratoin No. 9328, performed in 2009, and John I. Dolinar, Wyoming Professional Land Surveyor, Registration No. 2608, performed in 2001, were used to substantiate the purported findings.

These three surveyors all returned the same results for the measurement of this line and therefore their records were utilized for the basis of the development of this supplemental plat.

Plat prepared by Joel T. Ebner, Cadastral Surveyor, beginning November 9, 2010, and completed November 9, 2010, pursuant to Special Instructions dated November 8, 2009, for Group No. 832, Wyoming.

UNITED STATES DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT

Cheyenne, Wyoming November 29, 2010

This plat showing amended measurements and lottings, is based upon the official records and the aforementioned private survey records and, having been correctly prepared in accordance with the regulations of this Bureau is hereby accepted.

For the Director

John P. Lee
Chief Cadastral Surveyor for Wyoming
