All TRACT SEGREGATIONS and all claims conforming to the lines of the resurvey represent the position and form of said tracts under the original description as referred to the original survey, located as such on the ground according to the best available evidence of their true position.

The discrepancies in the relative position of certain TRACTS, (involving conflicts in the case of Tracts 58, 44, 57, 60, 48, 49, 50 and 51, are accounted for by the obliterated condition of the original survey approved April 30, 1884; and the fact that boundaries of claims had been fixed by measurements from points of control whose relative positions are not in agreement with the record of the original survey.

Tracts created in Resurvey T. 58 N., R. 74 W. which invade T. 57 N., R. 74 W. and which have numbers DUPLICATING NUMBERS OF TRACTS created in Resurvey of T. 57 N., R. 74 W.
