TOWNSHIP 44 NORTH, RANGE 102 WEST OF THE SIXTH PRINCIPAL MERIDIAN, WYOMING.

DEPENDENT RESURVEY

This plat represents a retracement and re-establishment of the south boundary, a portion of the east and west boundaries, and a portion of the subdivisional lines, designed to restore the corners in their true original locations according to the best available evidence. The areas are as shown on the plat approved January 6, 1900.

The history of prior surveys is contained in the field note record.

Survey executed by Joe N. LaRue, Supervisory Cadastral Surveyor and Carl W. Enix, Cadastral Surveyor, beginning July 18, 1963, and completed September 17, 1964, pursuant to Special Instructions for Group No. 285, Wyoming, dated June 14, 1963.

UNITED STATES DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT
Washington, D. C. September 9, 1966

This plat is strictly conformable to the approved field notes, and the survey, having been correctly executed in accordance with the requirements of law and the regulations of this Bureau, is hereby accepted.

TOWNSHIP No. 44 NORTH, RANGE No. 102 WEST OF THE SIXTH PRINCIPAL MERIDIAN, WYOMING

DEPENDENT RESURVEY SECTIONS 1, 2, 3, 4, 5 AND 6

This plat of the resurvey of Township No. 44 North, Range No. 102 West, delineates a retracement and reestablishment of the lines of the original survey of sections 1, 2, 3, 4, 5 and 6, as shown upon the plat approved January 6, 1900, in their true original position according to the best available evidence of the position of the original corners; all differences between the measurements shown on the original plat and those derived in the retracement have been distributed proportionally between accepted corners in accordance with surveying rules.

The definite purpose of this plat is to show the meridional boundaries of sections 1, 2, 3, 4, 5 and 6 extended from closing corners established in the original survey to new closing corners set on the Eleventh Standard Parallel North as independently resurveyed under Group 35, by M.J. Lytle, in 1934; investigations having shown that the survey of this standard parallel by Carpenter and Warner, in 1881, has no existence in fact.

This procedure is essential for the proper showing of the areas.

Resurvey authorized by Commissioners letter "E" dated January 18, 1935.

UNITED STATES
DEPARTMENT OF THE INTERIOR
GENERAL LAND OFFICE

Washington, D.C., May 16, 1941

The resurvey represented by this plat, having been correctly executed in accordance with the requirements of law and the regulations of this office, is hereby accepted.

Joel David Wolfson
Assistant Commissioner

Office of Supervisor of Surveys
Denver, Colorado, March 4, 1940

The above plat of Township No. 44 North, Range No. 102 West of the Sixth Principal Meridian, Wyoming, is strictly conformable to the field notes of the resurvey thereof which have been examined and approved.

Donald Johnson
