SURVEYED OCTOBER 24th — 25th 1902 BY

Robert Z. McCoy,

U.S. Deputy Mineral Surveyor,

The Original Field Notes of the Survey of the Mining Claim of The Rio Tinto Copper Company known as the Central Nº1, Central Nº2, Central Nº3, Central Nº4 and Leota Lodes

from which this plat has been made under my direction have been examined and approved, and are on file in this office; and I hereby certify that they furnish such an accurate description of said Mining Claim as will, if incorporated into a patent, serve fully to identify the premises, and that such reference is made therein to natural objects or permanent monuments as will perpetuate and fix the locus thereof.

I further certify that Five Hundred Dollars worth of labor has been expended or improvements made upon said Mining Claim by claimant or its grantors, and that said improvements consist of (3rd amended copy of Loc. for the benefit of each location)

Five Discovery Shafts, eight Shafts, three Trenches, and one Shaft House

that the location of said improvements is correctly shown upon this plat, and that no portion of said labor or improvements has been included in the estimate of expenditures upon any other claim.

And I further certify that this is a correct plat of said Mining Claim made in conformity with said original field notes of the survey thereof, and the same is hereby approved.
