Comments on the NPL EIS

I am in favor of the NPL EIS for the following reasons:

I feel that Encana has proven themselves to be responsible corporate citizens of our Southwest Wyoming communities, through their environmental programs and civic contributions. I would prefer to allow Encana the opportunity to developed this area instead of allowing a new or different operator to come in which may or may not be as good a corporate citizen as Encana.

Allowing this expansion project maintains steady work for many highly skilled members of our community who otherwise would have to relocate if this project does not happen.

Our local economies (grocery stores, small business, etc) depend heavily on the cash flow generated by EnCana's operations (Both taxes and sales) without this revenue these small business may fail which limits our local choices for goods and services.

Please respond to let me know my comments have been received.

Regards

Ann Etcheverry
